

# TAKE CONTROL

WITH **KYB**

## Introducing KYB's Control Arms: the pinnacle of durability and precision engineering

Designed to withstand substantial stress and impact, KYB Control Arms are meticulously manufactured to ensure unparalleled quality and longevity.

With over 60 years of steering and suspension experience, KYB has perfected the art of suspension technology with each control arm undergoing rigorous durability testing to meet exacting standard. That means reliability you can trust.

KYB Control Arms are vehicle-specific, ensuring seamless

integration with your car's make and model. From laser-etched branding for easy traceability to electrophoretic deposition plating for corrosion prevention, every detail is engineered for excellence.

Featuring natural rubber bushings found in KYB Shock Absorbers, KYB Control Arms' superior performance and reliability is backed with a 6-year or 150,000km warranty,

Elevate your driving experience with KYB - where precision meets excellence.
